Profile

Full Stack Developer and DevOps Engineer with a strong foundation in modern web and cloud technologies.

Experienced in Next.js, .NET, TypeScript, Angular, Docker container services and cloud-native deployment.

I make responsible and efficient use of AI, integrating it into my workflow as a guide and helper to accelerate and improve the projects I build.

Open mindset, problem solver, creative and prone to teamwork.

Soft Skills & AI

- Teamwork
- Responsibility of code
- Self-learning
- Responsible use of AI
